DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 22-23, drawn to a method for preparing an RNA sample by hybridizing and recovering the sample, classified in class 435, subclass 6.
 - II. Claims 24-25, drawn to a method for preparing an RNA sample by hybridizing the sample, digesting it using ribonuclease H, inactivating the ribonuclease H, and removing the probes, classified in class 435, subclass 6.
 - III. Claim 26-27, drawn to a method for preparing a cDNA sample by hybridizing mRNAs with probes, performing cDNA synthesis, and removing mRNAs, classified in class 435, subclass 6.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I-III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are different methods with materially different method steps. They have different modes of operation, as group I prepares RNA samples by hybridizing then recovering the sample, whereas in group II a ribonuclease H is used to digest the RNA. Furthermore, group III differs from both group I and II in

Art Unit: 1634

that it prepares a cDNA sample, and uses different method steps. It also has a different function than group I and II, which prepares RNA samples.

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II or III, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
